

# Bacoban® surface disinfection and up to ten days protection

Bacoban® has been tested to the following European and international standards and meets or exceeds levels required for certification.

EN 1040

Class 2A medical device

Basic Bactericidal Activity of Chemical Disinfectants

For use in hospitals and clinical environments

EN 1275

Quantitative Suspension Test for the Evaluation of Basic Fungicidal or Basic Yeasticidal Activity of Chemical Disinfectants

AMS 1451B & AMS1452B

Aerospace - certified for use in aircraft

EN 1276

Chemical Disinfectants Bactericidal Activity Testing

EN 1650

Quantitative Suspension Test for the Evaluation of Fungicidal Activity of Chemical Disinfectants

EN 1656

Chemical Disinfectants And Antiseptics - Quantitative Suspension Test For The Evaluation Of Bactericidal Activity Of Chemical Disinfectants And Antiseptics Used In Veterinary Field

EN 1657

Chemical disinfectants and antiseptics. Quantitative suspension test for the evaluation of fungicidal activity of chemical disinfectants and antiseptics used in veterinary field.

EN 13697

Chemical disinfectants and antiseptics. Quantitative non-porous surface test for the evaluation of bactericidal and/or fungicidal activity of chemical disinfectants used in food, industrial, domestic and institutional areas.

EN 14476

Quantitative Suspension Test for the Evaluation of Virucidal Activity of Chemical Disinfectants and Antiseptics in Human Medicine

Bacoban® is a new generation of nano-disinfectant with multi-functional properties.

This is a new type of disinfectant based on chemical nanotechnologies which gives a prolonged antimicrobial (antibacterial and antifungal) effect for a minimum of 10 days from application.

This is a sophisticated and intelligent Nano-system which improves the quality of infection control and actively supports the hygienic health of your facilities, staff and users.

This product is Non-Toxic and Eco friendly.

The Nano Technology allows slow release of antiseptic and disinfectant products impregnated within it to kill all viruses that come into contact with it over a 10 day period.

- Ready-For-Use Disinfectant / Cleaner.
- Effective Long Term Protection – 10 Days.
- Does Not Contain Aldehyde or Phenol.
- Destroys Bacteria, Fungus and Viruses.
- Water Based.
- Leaves An Easy Clean Coating.

Bacoban® is a uniquely effective and long lasting disinfectant, proven to stringent clinical standards and suitable for virtually every surface in surgeries, treatment rooms, communal areas, food preparation areas, hospitals, care homes, schools and all public areas.

- Proven 10-day protection against MRSA, E.coli, HIV, Hep B, Hep C and many others - at least 10 times more effective than conventional alternatives
- Equally effective on floors, walls, furniture, glass, work surfaces and numerous other areas
- Advanced nanotechnology formulation for extended protection
- Independently tested for effectiveness against a wide range of bacteria, fungi and viruses
- Uniquely covered by medically approved CE mark
- Complies with internationally recognised ASTM E2180 test
- Certified biocompatibility to DIN EN ISO 10993-1
